

CGS LEI Plus

Legal Entity Records

The Service

Global financial firms and regulators have embraced the concept of creating a standard, unique identifier for entities involved in financial transactions, including issuers, obligors and counterparties: the Legal Entity Identifier (LEI).

For nearly all market participants, the process of implementing the LEI involves mapping it to existing legal entity codes already in use.

In response to this need, CUSIP Global Services (CGS) created an identifier for global business entities called the CABRE. In the CGS LEI Plus file, the CABRE is mapped to the CUSIP Issuer Number or Obligor Number and to the official LEI providing a seamless solution.

CGS LEI Plus provides entity-level identifiers to facilitate electronic communication among counterparties. Beneficiaries of this service include those involved with risk management, client onboarding, anti-money laundering, operations, financial control and sales/trading.

Features

- Official 20-character LEI with operating unit prefix
- 10-character CABRE identifier with ISO domicile prefix
- CUSIP Issuer number linked to the CABRE and LEI where available for an issuing entity
- Entity records are re-verified every 6 months based on expert analysis
- Full "business card" record including Role Type, Legal Form and Doing Business As name
- Supplemental file containing Registered, Operational and Headquarter addresses

Benefits

- Unique counterparty identifier for hundreds of thousands of entities - coverage will grow over time through relationships with the issuer community
- Adhere to growing regulations to identify counterparties and investments with the LEI
- Populate CRM systems with unique and standardized company identification
- Improve communications between firms by using a common language
- Manage transactions more efficiently
- Reduce risk resulting from incorrectly identified entities
- Facilitate more reliable linking of business entities within company hierarchies

Delivery

- Initial master file
- Daily delta files

About CUSIP®

The financial services industry relies on our unrivaled experience in uniquely identifying instruments and entities to support efficient global capital markets. Our extensive focus on standardization over the past 50+ years has helped us earn the reputation for being the trusted originator of quality identifiers and descriptive data that are interoperable among regulators, banks, vendors, exchanges and depositories. This ensures that essential front- and back-office functions continue to run smoothly.

CGS is managed on behalf of the American Bankers Association (ABA) by FactSet Research Systems Inc., with a Board of Trustees that represents the voices of leading financial institutions.

Subscription services provide data access directly from CGS. Data is also available through authorized redistributors and may be subject to a separate CGS license.
